

KINGSTON LANDMARKS AND SOME OF THE EUROPEANS IN CITY WHEN EARTHQUAKE RAZED IT

Th. Ancient Central.

Continued from Page 1.

FEAR RECURRENCE OF SHOCKS.

The United States Government will probably be called on to-day for aid for the American victims of the earthquake. Every white tourist on the island is in danger to-day because of the food shortage. Natives will be able to get along for a few days by eating fruits and vegetables, but a resort to this food by whites will certainly result in pestilence.

Despite the reports sent from Jamaica that all New England tourists are safe, there is great anxiety among friends of those who are known to be in Kingston

[illegible]

LONDON, Jan. 17.—It was the first earthquake shock at Kingston, occurring about 3:55 o'clock Monday afternoon, which did the great damage, according to Kingston reached today by the Kingston

Thirty or forty persons were killed in the collapse of the Myrtlebank Hotel. Hundreds of injured persons were removed to the ships in the harbor, where they were treated.

Prison Destroyed. The convict prison was destroyed by the shock, but the soldiers on guard there maintained excellent discipline and kept the convicts under control.

ALL AMERICANS SAFE.

All in above lists are English officials and tourists. All Americans are believed to be safe, the Hazens and Goulds and Messrs. Baker and Angier being specifically reported as having escaped injury.

Representative Boston business men met the Mayor's office at City Hall at noon today on the invitation of Mayor Fitzmaurice to consider what steps should be taken by the city of Boston, in relation to the suffering people of Kingston. The committee to attend the meeting were: the Hon. Mr. J. C. Crocker of the Chamber of Commerce, George and Boston, three small towns about twenty-five miles east of Kingston, are reported to have been killed and devastated by the quakes, with 100 lives lost.

For twenty miles out of Kingston the sugar and coffee plantations are heavily damaged. The six cables entering Kingston were broken.

IN OUTSIDE TOWNS**
GALVESTON, Tex., Jan. 17.—The
summa cable is working in pits and starts

and the meagre reports usually confirm the first flashes of the horrors of the quake at Kingston. Slight tremors were reported on Tuesday evening.

Less than twenty buildings escaped damage and had the shocks occurred at night the loss of life would have been all the more fearful. Reports from surrounding towns show the tremors to have been felt seventy-five miles west of Kingston.

Spanish Town, seventy-five miles west of Kingston, with a population of over 900, was considerably damaged, and three

The extreme cold of the early day gradually tempered in preparation for a snowstorm due tonight from the West. To-morrow it will be considerably warmer with a continuance of snow and a possible change to rain. The weather was good and cold when I awoke to-day. It was the coldest day since this Winter. In McLeish High School the thermometer showed eight degrees

From that record mark the mercuries anywhere up to zero, thus indicating to the degree of exposure. The coldest temperature, as recorded by the United States Weather Bureau thermometer at the top of the Postoffice building, was below zero at 6 a. m.

The excessive cold is causing schools to close. Somerville led the way in this movement to-day, all the school buildings being ordered closed on account of danger to scholars from the

Delay in Traffic.
The usual delay to trains from

switches accompanies the cold. A good example of how feeble an alleged transportation service run by was the recent suburban passenger train on the Atlantic division of the New York, Haven & Hartford, which left Forest for Boston at 8:22. It was due at South Station at 8:30, a seventeen-minute run. Between Back Bay and South Station the train was twice held up. Finally crawled to South Station at 8:47, a half an hour late. For a seventeen-minute run this was considered a late enough by the disgruntled passengers. They were thankful they had started from 'Prisco. At that rate

| would have been about three weeks get-

Comes as Surprise.
The cold snap comes as a disagreeable surprise to people who had followed the weather man's prediction that it would be "warmer" late last night. Instead of being warmer it suddenly grew excessively colder.

The Identifies T

Every *El Toro* cigar is now banded to guard you against the many unreliable brands of questionable quality which have been pushed on the market since the recent increased cost of Porto Rican leaf. Be sure you get the genuine.

This is one cigar you can be sure is 100% Porto Rican, made in Porto Rico, entirely of Porto Rican tobacco. For years its high quality has been a prime factor in the popularizing of Porto Rican cigars among discriminating smokers.

The El Toro cigars now being marketed are particularly recommended because of the unusual excellence of this year's Porto Rican tobacco crop—from only the choicest selections of which El Toros are made.

El Toro is today the best cigar Porto Rico can produce for 5 cents. There's a hand on the machine.

band on the genuine.
